

## HUNT MINING ORDERS NEW METALLURGY TESTS

**Liberty Lake, Washington, March 30, 2016** - Hunt Mining Corp. ("Hunt" or the "Company") (TSXV: "HMX") is pleased to provide an update regarding the ongoing activities in Argentina.

Hunt Mining announces it has shipped ore samples taken from its flagship project, La Josefina in Santa Cruz Province, Argentina to the McClelland Laboratories in Sparks, Nevada.

The principal purpose of the tests on the ore samples is to confirm the compatibility of additional La Josefina veins for flotation processing and to test procedures allowing for onsite bullion generation.

"With the more favorable conditions being created by the newly elected President Macri, new Mines Secretary Daniel Meilán, and the optimism within the Santa Cruz Province, we are enthusiastic about the future of precious metals mining in Argentina", stated Tim Hunt, Executive Chairman/CEO.

### About Hunt Mining

Hunt Mining Corp. has continued to develop its properties as an active and aggressive explorer in Santa Cruz since 2006. During that time, Hunt's wholly owned subsidiary, Cerro Cazador S.A., has completed exploration activity including 62,000 meters of HQ core drilling, 416 line kilometers of Induced Polarization geophysical surveys and more than 20,000 surface soil, sediment, channel, chip, and trench samples, beyond the historical work previous to the same properties.
